

MONTPELLIER

Natural Stone for Every Home

WELCOME

The Montpellier award-winning collection of fireplaces is presented here along with several exciting new additions.

Many of the pieces shown are embodiments of the company's signature style and inimitable quality which is renowned in the fireplace industry. Our collection is constantly evolving and developing and many of the models featured are now modern classics. We now have a Limited Edition section of our classic designs which are available to order and can be customised to suit your requirements.

Each fire surround in Montpellier's distinctive collection is individually hand-carved in pure marble or premium limestone and is offered with a matching hearth and back panel to create a harmonious whole. Our designs are infinitely versatile, allowing them to be used with different size inset gas fires, baskets, cast iron inserts and if appropriately adapted, for solid fuel applications, especially stoves.

Our endeavours to achieve a high standard in product design, material, quality and finish have been recognised and endorsed by several Hearth and Home awards received in recent years. All the marble and limestone used in the production of our fireplaces are exclusive to Montpellier, in particular our signature material Bianco Persiano.

Our matching accessories, which are intended to coordinate with the fireplaces are also featured. Montpellier brand fireplaces are available from authorised quality stockists in the UK and Ireland. Please contact us for details of your nearest stockist or log onto our website at www.montpellier.co.uk.

On the following pages, we invite you to draw inspiration from some unique and innovative pieces, whether classic or contemporary, to suit your home and your mood. We have also taken the opportunity to show you some of the other projects we do at Montpellier through our stone flooring, bespoke bathroom and worktop division in Gloucestershire and surrounding counties.

A handwritten signature in black ink that reads "Eve Iravani". The signature is written in a cursive, flowing style. Below the signature, there is a thin horizontal line.

Eve Iravani

◀
SAN PIETRO

The San Pietro, left, features individual precision cut and polished sections of marble painstakingly arranged across the fascia and vertically through each leg of the fireplace. It is featured here with a Barbas Vento 65 high efficiency gas fire. Available in 54" size.

54"	mm	in	mm	in
Overall height	1120	44	Hearth depth	460 18
Overall width	1270	50	Hearth type	boxed & lipped

Shelf depth	230	9	Opening width	890 35
Hearth length	1370	54	Back panel/slips	yes

▶
SAN ROCCO

The San Rocco, featured here in Bianco Persiano marble, is another breakthrough design from Montpellier, and was a finalist in the 2008 Hearth and Home awards. It is distinguished by split-face marble panels embedded in the legs and fascia to add a rustic twist to its otherwise clean, contemporary lines. Shown with Barbas Vento 65 gas fire. Available in 54" size.

54"	mm	in	mm	in
Overall height	1120	44	Hearth depth	460 18

MONTE CARLO

The Monte Carlo won the prestigious Fireplace of the Year award at the Hearth and Home 2007 show, with an unprecedented 100% score awarded by the judging panel – an amazing achievement for a design brought to life by the human hand using a natural material. Available with either slips or a back panel. Shown with Faber Spectra Front Gas Fire, left, and Chesney's Universal Basket and Spherical Dogs, right. Available in 54" size.

THE RIVIERA COLLECTION

◀
SAN MARINO

This fire surround features slim round columns embedded into the legs and fascia of the fire surround – another innovative hand-carving technique developed by Montpellier. The floating hearth is replicated in the shelf detail. Available in 54” size.

54”	mm	in	Hearth depth	mm	in

Hearth length	1370	54			

▶
SAN FRANCISCO

This simple, restrained design with undulating lines in the legs and fascia, is a tribute to supreme craftsmanship. In simpler designs such as this, accuracy of hand-carving takes on a greater importance as there is no embellishment to offer any distraction. Available in 48” and 54” sizes.

48”	mm	in	Hearth depth	mm	in

DENVER

The stark simplicity of the Denver fire surround brings out the full beauty of our honed Persiano Limestone. It is a straightforward construction, is competitively priced and will harmonize beautifully with most interior schemes. It is shown here with a Chesney's Petworth multi-fuel stove with a specially adapted hearth for solid fuel. Available in 48" and 54" sizes.

TAMARA

The beautifully-proportioned Tamara fire surround with individually hand carved columns and waterfall hearth is featured left in Bianco Persiano marble and on the right in Creme Classico marble. The Tamara 60" is also ideally suited for cast iron inserts which further enhance its majestic appearance. Shown here with Faber Clear high efficiency gas fire. Available in 54" and 60" sizes.

54"	mm	in	Hearth depth	mm	in
Overall height	1120	44	Hearth depth	460	18

GIOVANNA

The easy charm of the Giovanna belies its complex interior construction: integral full columns seamlessly united with the fascia. The mantel shelf repeats the design of the waterfall hearth in reverse. This fire surround is ideal for use with a modern cast iron insert and basket, but works equally well with a back panel and inset fire. Available in 54" size.

OXFORD

Infinitely adaptable, the Oxford began as an idea for a stand-alone hearth and back panel: an economical way to introduce marble into a room scheme without committing to a full fireplace. It can be used to showcase contemporary gas, electric and gel fires or, without the cut-out, as a backdrop for a vase of flowers or decorative object. Available in 40" size.

40"	mm	in	Hearth depth	mm	in

AVAILABILITY CHART

Please note that due to the ever-changing situation at marble quarries, the availability of certain materials is subject to change. We have therefore introduced the table here to assist you with your colour selection. It is always advisable to ring us for any item which is not listed as “Normally in Stock” to check availability before an order is confirmed or installation date finalized. All special order surrounds or those requiring bespoke sizes carry a lead time of 12-14 weeks and may be subject to extra charges

- normally in stock
- 8 to 12 weeks

Bianco Persiano

Bianco Persiano, a white marble with grey veining has been Montpellier's signature marble now for many years. With its supply now severely restricted, it is rare and costly and any fireplace made from this material is the ultimate luxury.

Crème Classico

Crème Classico marble features warm honey and caramel tones, rich veining and touches of onyx. A more exciting alternative to the ubiquitous Crema Marfil, it is polished entirely by hand in order to achieve the unique finish for which Montpellier is renowned.

Persiano Limestone

Persiano Limestone is a robust creamy white material which is more a dolomite than a limestone. It is characterised by a soft grey bloom and occasional speckles, and does vary from one batch to another so you are advised to request a current sample.

All the materials used in the production of our fireplaces are exclusive to Montpellier, which makes your fireplace even more unique and special. Please refer to our availability chart on the facing page. Samples of the different marble colours can be viewed at your local Montpellier stockist.

Marble is a natural material and variations in colour, veining and texture must be expected. These features are natural characteristics and must not be considered defects. Stops and fills are a normal part of the production process and where

necessary are carried out by expert stonemasons, so they should not be perceived as faults.

In the interest of continuing product development, we reserve the right to make changes at any time, without notice, to prices, colours, material, specification and to discontinue models.

Colour and shade reproduction in this brochure are as accurate as printing processes will allow and are intended as a guide only. All sizes are approximate. E&OE.

STOCKISTS

Montpellier has a nationwide network of stockists; each carefully chosen on the basis of strict criteria and a potential to provide a quality product and service to clients. Your local stockist will be able to assist you with all your requirements from initial surveys through to product selection and final installation.

You may contact them for advice on related products such as gas or electric fires, open fires, stoves and accessories as well as full information on the Montpellier collection. For information on your nearest stockist, please call us on telephone 01452 714 800 or log onto our website at www.montpellier.co.uk.

Please be advised that Montpellier Marble fireplaces are only available from authorized stockists with showrooms. We do not sanction the sale of our fireplaces through internet selling sites.

BESPOKE SERVICE

Any of our Montpellier designs shown in this brochure can be customised to suit your individual requirements, for example, a change in hearth size to suit a carpet cut out. Special orders normally take 12-14 weeks and might be subject to additional charges.

Montpellier fireplaces can be used with open fires and wood burning stoves provided the hearth and back panels are properly adapted to withstand the high heat output of such installations. We offer a slabbing service at an additional cost. Please check with your stockist for more details.

AWARD WINNING FIREPLACES

Our endeavours at Montpellier to achieve a high standard in product design, material and quality have been recognised and rewarded by the industry. We take pride in the Hearth & Home Exhibition Awards we have received in recent years. This valuable endorsement has inspired us to continue our quest to create timeless classics which will grace homes worldwide for years to come.

Winner of the Hearth & Home Exhibition "Best Mantel" award 1999, 2000, 2002, 2005 and 2007. Fireplace of the Year Award 2007.

CARE AND MAINTENANCE OF YOUR MONTEPELLIER SURROUND

The care and maintenance of your surround is a simple process providing you take care with substances such as tea, coffee and red wine which are likely to stain or corrode the surface of the stone. Log onto www.montpellier.co.uk for further information.

For cleaning and protecting your fireplace we recommend the Fila™ range of products available from Montpellier. This range of products has been especially developed for marble, limestone, travertine and granite with the result that all the items in the range complement one another.

ACKNOWLEDGEMENTS

Did you know that...

As well as an award-winning range of fireplaces, Montpellier also has a projects division supplying natural stone flooring, bespoke bathrooms and kitchen worktops in granite, marble and quartz.

We are approved stockists of Silestone and Caesarstone quartz in the Gloucestershire area.

On the following pages you will see selected images showing examples of our work and materials used in some of our projects. You will also notice that we have a range of accessories such as lamps, columns and tables in our signature materials designed to complement your Montpellier fireplace. For further information please log onto www.montpellier.co.uk or ring us on 01452 714 800.
